solely for the purpose of making Al-pena's council Republican. It places 611 Mo families in one Democratic ward, and 176 families in an adjoining Republican ward. The bill was rallroaded through on party lines, even Representative Ham-mond, chairman of the committee on municipal corporations, who was filled with intense disgust at the admission, or boast, of Mr. Pack, swallowing the lump boast, of Mr. Pack, swallowing the lump in his throat and voting with his party. The Republicans had come together for the purpose of turning out everybody appointed by Mayor Harshaw and a Democratic council, and their partisanship never wavered. Representative Wachtel sent up several amendments and Representative Blakley; expressed the hope that they would be all considered in a bunch and all rejected. Subsequently the speaker ruled that they would be so considered and all defeated together. From this decision Representative Barkworth appealed, but by a strict party vote the House decided that a dozen different amendments, to a dozen different sections, on a dozen different pages, could all be voted upon at once. The partisanship of the House was so strong, and the pressure of the Alpena lobbbyists so persistent that the vote would have been the same had there been a dozen amendments to a dozen different bills.

Current report said there had been a remarkable cure in the case of a lady of Savanna, Ill., but as current report is not always accurate, and as the story told was one possessing deep interest for the public. The Times determined upon a thorough investigation into the matter. The result of this investigation proved that not only was the story true, but that the case was even more remarkable than the public had been given to understand.

One act passed rt the late session of the legislature gives to women taxpayers the right to vote at municipal elections, the right to vote at municipal elections. If they pay taxes, why should they not have a voice in the election of officers to spend it?

The best act of the State Legislature was to adjourn and not disgrace the people of Michigan any longer. It was the grandest farce that any civilized nation has been afflicted with, and the people are thankful that even the capitol building is left and may not have to be mortaged to pay the extravagant expenses.
